

JAI SRI KRISHNA SAI RAM MOKKAPATI

Site Reliability Engineer (SRE)

Hyderabad | +91 6305379489 | sairamchowdary992@gmail.com

Professional Summary

Site Reliability Engineer with 3 years of experience supporting enterprise telecommunications management applications. Experienced in Linux administration, Kubernetes, OpenShift, AWS, Azure (AZ-104 Certified), Jenkins, ArgoCD, Splunk, Dynatrace, incident management, RCA, production deployments, SSL/TLS certificate management, CI/CD, Bash, Python and Terraform.

Technical Skills

- Operating Systems: Linux (RHEL/Ubuntu)
- Cloud: AWS (EC2, S3, CloudWatch), Microsoft Azure (AZ-104 Certified)
- Containers: Kubernetes, OpenShift, Docker
- CI/CD: Jenkins, ArgoCD, Git
- Monitoring: Splunk, Dynatrace
- Scripting: Bash, Python
- Databases: MySQL, SQL Server
- Other: ServiceNow, Jira, REST APIs, Postman, SSL/TLS Certificate Management, Terraform

Professional Experience

Accenture

Packaged App Development Associate | September 2023 – December 2025

- Provided L2 production support for enterprise telecommunications management applications.
- Monitored applications using Splunk and Dynatrace to identify and resolve production issues.
- Performed Linux administration including process monitoring, disk monitoring, cron jobs, log analysis and service management.
- Supported Kubernetes/OpenShift by troubleshooting pod failures, rollout restarts, scaling deployments, ConfigMaps and Secrets.
- Executed CI/CD deployments using Jenkins and ArgoCD with deployment validation and rollback verification.
- Supported AWS resources including EC2, S3 and CloudWatch.
- Developed Bash scripts for health checks, disk monitoring and service restarts.
- Managed SSL/TLS certificate renewals with minimal service disruption.
- Worked with ServiceNow and Jira while meeting SLA commitments.

Packaged App Development Analyst | December 2025 – Present

- Provide L2/L3 production support for enterprise telecommunications management applications.
- Resolve 5–10 P1 incidents and 30–40 P2 incidents monthly while consistently meeting SLA targets.

- Reduced MTTR through proactive monitoring, Root Cause Analysis (RCA) and cross-functional collaboration.
- Perform advanced troubleshooting using Splunk, Dynatrace PurePath, dashboards and service flow analysis.
- Lead production deployments, release validation and post-deployment monitoring using Jenkins, ArgoCD, Kubernetes and OpenShift.
- Investigate application, infrastructure and API issues using Linux, SQL and AWS.
- Coordinate production changes and ensure service reliability during releases.
- Received the ACE Award, client appreciation and recognition emails for operational excellence.

Certifications

- Microsoft Certified: Azure Administrator Associate (AZ-104)

Education

B.Tech – Electronics & Communication Engineering
Godavari Institute of Engineering and Technology (2019–2023)
